

RVBS: Single-phase variable frequency drive

Switches

RVBS

Single-phase variable frequency drive

Carlo Gavazzi RVBS drives for general purpose usage, are designed for induction motors (IM) to meet a wide variety of different application requirements for both industrial and residential environments.

The most common challenges for variable frequency drives are: space and cost. With RVBS we designed a cost-effective solution in a very compact platform to address the market's needs.

Even though it's a very compact product, RVBS integrates numerous features, yet an easy-to-use interface allowing the drive to handle various applications (Conveyors, Heat pumps, Fans...).

Variable frequency drives for general purpose usage

Easy configuration

RVBS requires fewer configuration parameters for a shorter setup time

Real-time monitoring

RVBS comes with a Modbus RTU interface that enables the user a real time monitoring of the product

Time saving

Use of push-in connectors for a faster and more reliable installation

Remote control

To facilitate commissioning activity, a remote keypad is available for configuration of RVBS

Space saving

A very compact PCB allowing RVBS to fit in electrical panels with limited spaces

Applications

Heat pumps

High energy savings are possible heat pumps through variable frequency drives since they provide a stepless speed control of compressors according to the load demand.

With RVBS we provide a very compact solution that can fit in HVAC units with limited space.

The product comes in 2 power rating models (0.55 kW and 0.75 kW), to control induction motor compressors through a limited set of configuration parameters.

Compressor speed can be varied either via communication through the Modbus port or via the analog (0 - 10 V) input to adapt to any heat pump controller.

Main features

Selection guide

AC supply	Rated output power	Rated output current @ 40°C	Cooling method	Ordering code
1 - phase (230 VAC)	0.55 kW	2.7 Arms	Heatsink	RVBS120055F
				RVBS120055FX10 (10 pieces per box)
	0.75 kW	5 Arms	Heatsink with fan	RVBS120075F
				RVBS120075FX10 (10 pieces per box)
